## Supply and installation of fitted and loose furniture.

➤ Selling directly to public sector users and main contractors, Remploy Furniture offers both loose and fitted solutions for schools, laboratories and contract accommodation. The wood and metal furniture is practical, built to last and aesthetically pleasing.

Remploy Furniture also offers a market leading design, project management and installation service that extends out of the classroom and into hospitals, offices and other public sector environments.

Committed to providing the highest quality, fit-for-purpose products, Remploy Furniture leads the way in planning and installing purpose-built, attractive, hardworking educational spaces. Our understanding of the needs of the education environment has led to Remploy Furniture supplying furniture to more than 13,000 schools and colleges over the past three years alone, making us the UK's largest supplier of furniture to the education sector.

Remploy Furniture is proud to have a key role in supplying the UK's largest ever school buildings investment programme, Building Schools for the Future (BSF).

## ➤ Creating 21st century learning environments

Remploy Furniture has been creating learning environments for schools, colleges and universities across the UK for more than 60 years.

As part of the Remploy Group - the UK's leading provider of employment services and jobs for disabled people and those facing barriers to work - Remploy Furniture aims to create the very best 21st century learning spaces and in so doing provide sustainable work for its 300 disabled employees.

We not only make high quality, value-for-money educational furniture, we also plan and design flexible, future-proof learning environments for schools, universities and academies.

Whether replacing old or damaged furniture, fitting out a science and technology classroom, or creating

brand new learning environments as part of a major refurbishment or new build project, we have the experience to help as we've been taking care of the furniture needs of education establishments for more than 60 years.

### > Capital Projects

As a specialist FF&E supplier for education, we work closely with architects, main contractors, local education partnerships and schools to develop the most effective and inspirational learning spaces for any education new build or refurbishment project.

To date, we have delivered well over 70 large-scale projects in education. And because we know every school is unique, we work to reflect their visions and values through the physical environments we create - bespoke solutions that support educational ideals.

### > Professional Services

With more than 60 years' experience of creating robust and effective learning environments, we provide consultancy services to organisations looking to develop an FF&E specification for any educational building or refurbishment project.

Our dedicated consultants are design, project management and supply chain experts who can

help develop attractive, hardworking and flexible educational spaces from our own extensive range of fit-for-purpose products.

### > General Education

As a major manufacturer of educational furniture, we know that learning environments can be tough on furniture so we build our products to last. Everything we manufacture is tested independently for strength, stability, durability and fire retardancy, and as such complies with the international quality management standard ISO 9001:2000. We're also serious about our environmental obligations - all our manufacturing processes comply with government environmental legislation and our timber comes from renewable farmed resources.

But having a comprehensive range of excellent fit-for-purpose products would be nothing without great customer service. In order to fulfill orders as quickly as possible we carry a large stock of all our most popular items, allowing for fast track deliveries. We also work closely with our suppliers to ensure our exceptional service levels are maintained throughout the year, especially at peak ordering times.
